

PROPOSAL • CONTENT PARTNERSHIP

We make sure the right people see you.

You're the face of your business — which means the content only happens when you have time, and you never have time. We run the whole thing: the shoot, the edits, what goes out and when. You give us one shoot day a month.

● THE POSITION

A growth partner, not a video vendor.

Clients hire us so they stop having to think about social media or content at all. We're partners in their business — making sure their content actually reaches their audience.

100M+

VIEWS GENERATED

10,000+

ENGAGEMENT GENERATED

700+

VIRAL CONTENT CREATED

Any business, any industry — serving the corridor from Kitchener to Oshawa. Content shot in English, Gujarati and Hindi.

Case in point: realtor Kaushik Patel — 40+ videos in three months, 350,000+ views, 1,000+ comments, and 5–7 serious leads.

● LEADERSHIP

Two people. Both of them on your account.

No account manager. No junior editor learning on your business. You work with the two people whose names are on the company.

Ungotheble

FOUNDER · VIRALITY EXPERT

250K+ followers across platforms, 100M+ views generated. Built his page from zero in his first year in Canada — one of the strongest Gujarati-language creators in the country.

Arman Mansuri

CO-FOUNDER · AI & AUTOMATION EXPERT

AI and technology expert who grew his own car brokerage business, then automated it — the systems that let it run without him in the room. Your in-house AI expert, on call anytime.

● WHAT WE RUN

One service, three ways we can film it.

One shoot day a month becomes twelve finished videos, planned out and posted, with both of us on the account. The only thing that changes between clients is where we film.

01

Plan

What to talk about — based on your industry and your customers' questions.

02

Shoot

You show up and talk — we bring the questions, handle everything else.

03

Edit

Hooks, captions, music, pacing — by people who've built real audiences.

04

Approve

You see the whole month first. Change or swap anything before it's live.

05

Publish + Learn

Posted, then measured — what worked shapes next month's plan.

● WHAT WE RUN

Three ways to shoot it.

INDOOR

\$2,099 / MONTH

Office, clinic, studio, showroom — fastest to run, easiest to keep consistent.

MOST RECOMMENDED

HYBRID

\$2,499 / MONTH

Half where you work, half where the work happens. Most businesses land here.

OUTDOOR

\$2,999 / MONTH

The location is the story — listings, job sites, vehicles, events.

Minimum term: one month. We recommend three — that's when results become visible. Need more than twelve videos, a rush turnaround, or travel outside the GTA+? Add-ons are quoted individually.

● BEFORE YOU BOOK

LIMITED SEATS ONLY

Both of us are on every shoot personally — that's the ceiling for doing it right, not a sales tactic. We only open a handful of new accounts at a time, and once they're taken, the next opening waits for the following month.

LIMITED-TIME OFFER

We're rolling out AI agents and a handful of new automations built for client support this quarter — free for your first three months on every new account. We'll walk you through what's live on the call.
